

FELIX SVENSSON

FRIENDLY DEVELOPER

I'm a solution-driven person, always looking for improvement. I love new technology and constantly stay up to date with what's happening in the industry.

PROFESSIONAL EXPERIENCE

Flixen AB

2022 - Present

Backend Developer

2022 - 2023, 2025 - Present Client: Worldstream

- Infrastructure provider based in the Netherlands.
- Built an event-sourced system where traceability was a key focus, written in Go for performance.
- Technologies used: Go, event sourcing, network switches, Docker.

Senior Backend Developer

2023 - 2025 Client: Volvo

- Part of the Energy Device Cloud team at Volvo.
- Built an OCPP server in .NET using the Orleans actor system, optimized for high performance and scalability.
- Infrastructure and hosting handled in AWS using Terraform for IaC.

Backend Developer

2023 Client: Chargenode EU

- EV charger provider developing everything in-house, from hardware to customer portal and charger protocols.
- Built a highly scalable system in Azure for connecting 100k+ chargers using the actor model.
- Maintained and supported mainline development of the existing .NET system.

AFRY

2020 - 2022

Senior Developer

2020 - 2022 Client: Swedish med-tech company

- Proactive patient care through live health monitoring, written in C# and hosted in Microsoft Azure.
- Software development in agile teams, with focus on identity and security management.
